# Project Identity

## Natuzzi Editions

The Project Identity purpose is to offer a unique working method that guarantees chromatic and stylistic conformity and preserves the Brand's DNA.

This tool represents a guide that goes beyond the offer of a product, aiming at the creation of a real project from the stores to the customers' homes.

# Roma

For the design of this model, the Natuzzi Design Center was inspired by the Italian capital and its ancient streets, whose intersections draw perfect geometries that we find on the coating to enhance its shape majestic and slender at the same time. Modular and extremely versatile, Roma is equipped with adjustable armrests for personalized comfort, while the compass opening of the backrests offers two different depths with a single seat.

# dolcevita

MADE IN NATUZZI

The Dolce Vita Collection represents the perfect blend of design and functionality, with sofas designed for those who appreciate quality and attention to detail. It offers superior comfort, enriching your home with style.

## Design by Natuzzi Design Center

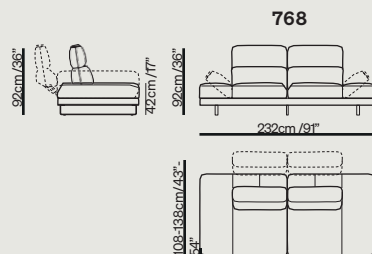

In the Natuzzi Headquarter in Puglia, the Design Center preserves the balance between design and functionality, values rooted in the brand's DNA.

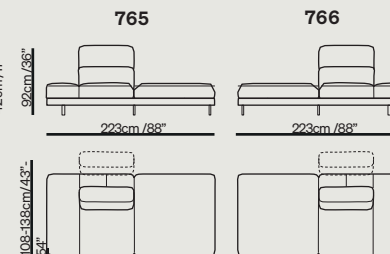

## Choose your Roma

The Roma project is extremely versatile thanks to its 17 SKUs that allow us to create unlimited configurations suitable for any space, from the stores to our customers' homes.

## Comfort & Visual Softness

The model features an integrated relax mechanism, which enhances comfort by allowing the seat position to be adjusted according to the desired level of relaxation. Due to the presence of soft padding, slight misalignments between seat sections may occur a physiological behavior resulting from the natural elasticity of the materials, and a sign of genuine comfort and softness.

The soft padding beneath the seat and back cushions adds a “soft-to-the-eye” appearance, conveying a sense of comfort and relaxed hospitality. This construction approach gives the sofa a warmer, more informal, and naturally “lived-in” look.

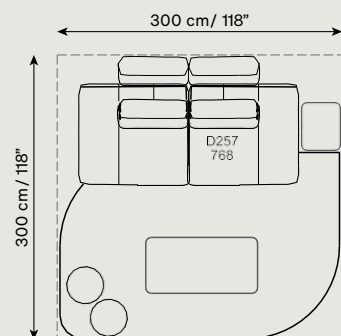

The integrated mechanism is designed to enhance comfort, allowing the seating position to be adjusted for a personalized sense of comfort. Each sofa is crafted with meticulous attention to detail, showcasing artisanal precision in every stitch and finish. Natural variations such as wrinkles or subtle marks are not flaws but distinctive traits of the fabric, that highlight the evolving beauty of each piece over time.

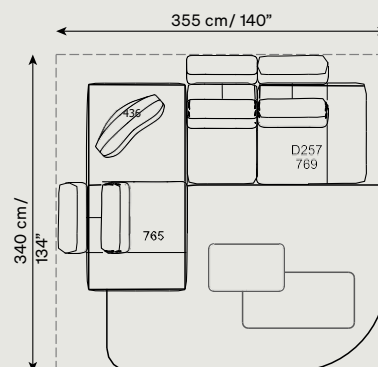

## Layout examples

It's possible to highlight the versatility of the project even with different layouts, suggesting the creation of various roomsets to show the optimization of spaces in any living area.

## Moodboard green

The Natuzzi Style Center carefully selects materials and coverings, putting them in dialogue with each other. In this case, the Denver leather in the Bianco Ottico color was paired with the Cupido velvet in the moss color. The combination of these coverings together with the wood, will give rise to the moodboard that will create the final total look of the project. Each model in the collection is presented with multiple moodboards to adapt to homes all over the world.

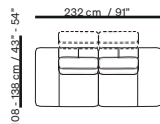

## Moodboard green

Together with the moodboard of coverings and materials, the Style Centre harmonizes the sofa with furniture and accessories to complete the interior design project.
